ABOUT ME

For the 2012/13 academic year I was a co-founder of the Elevation Networks Society – a charity based on improving the employability of underrepresented groups through skills workshops, presentations and contact with businesses. In this year I was also the publicity coordinator for the KCL African and Caribbean Society (ACS). This year I am the Vice President of the ACS. So I have experience working for Ethnic Minorities!

WHAT I WANT TO DO AND HOW

As the Ethnic Minorities Officer I want to promote diversity and cultural awareness in King’s. I hope to achieve this by:

- Providing a platform to students across King’s to voice concerns or suggestions regarding the welfare of ethnic minority students.
- Campaigning for equality for all students regardless of race on a local and national level.
- Organising open feedback sessions for King’s students to anonymously submit feedback about their experience of diversity.
- Creating a network, similar to the BME Staff Network, for students to actively campaign against King’s policies that have a disproportionate effect on Ethnic Minorities.
- Increasing cross-cultural collaboration for students in order to become one united voice.
- Liaising with the students to put forward any concerns to the NUS
- Helping to promote cultures outside of the liberation months
- Campaigning for increased funding and promotion for cultural societies, including a larger space at Fresher’s Fair.

Vote Solomon!
