King’s Community Fund 2019

Application Guidelines

Selection Criteria
We welcome funding applications from all King’s students. The fund, made possible by donations from King’s alumni, is there to support your ideas and projects for improving your King’s community or for being a part of something with other university students.

Whether you’re an individual with an idea, part of a group or a student representative, the King’s Community Fund is open to all. You can bid for between £750 and £10,000 for each project. The fund can cover things like equipment, promotional materials, conference/event costs and training. It’s there to help make an idea happen.

Principles

Successful applications should:

- Enhance the student experience
- Actively help others or further the community at King’s
- Promote educational advancement
- Encourage students to actively help the community

The King’s Community Fund can support:

- Equipment provision, for example: printing, resources, event costs, training
- Projects which are unlikely to receive funding from other sources, for example: Big Lottery Funding, Local Authority etc.
- Projects that will support the student experience or local community, or promote the reputation of the College to the benefit of all
- Projects under £10,000
- We strongly encourage applications from innovative projects, start-up and pilot projects

The King’s Community Fund can’t support projects that require ongoing funding from the King’s Community Fund.

How to apply

To apply you’ll need to complete the King’s Community Fund [online application form] by 11am on Monday 11 November 2019 with shortlisted students/groups required to present their application to the Kings Community Fund panel on Wednesday 20 November 2019.
